

## Health and Safety Policy

Review Display Systems Limited is committed to provide a safe and healthy working environment and operates an Occupational Health and Safety Management System which complies with ISO45001:2018; for the prevention of work related injuries and ill health. All aspects of this documented system relate to the specific requirements of the Company and are subject to continuous monitoring, measurement and where necessary improvement to ensure continued compliance.

Top management is committed to:

- Fulfil legal requirements and comply with all relevant safety legislation, regulations and other health and safety obligations.
- Provide and maintain a safe environment
- Provide adequate welfare facilities
- Consult with our employees on all matters affecting their health and safety and seek their regular participation in this system.
- Ensure safe arrangements for the use, handling, storage and transport of substances and materials.
- Provide sufficient information, instruction, training and supervision to enable employees to avoid hazards and to contribute positively to the health and safety of themselves and others whilst at work
- Provide adequate control and reduction of health and safety risks and hazards arising from our work activities.

Top management shall:

- Provide a framework for the setting, controlling, monitoring and measuring of Health and Safety Objectives.
- Ensure this policy and the related objectives are communicated and available for all members of staff and interested parties.

The Company sees this as a partnership with all employees to co-operate with management in carrying out their statutory duties with the object of raising and maintaining a high standard of health and safety, for ensuring so far as it is reasonably practicable, the health, safety and welfare of its employees and visitors. It is the responsibility of the Managing Director for the overall responsibility of the system detailed above.

Signed .....  
Mr R Gilbert, Managing Director
